

We are a friendly, well-established practice looking for an enthusiastic nurse practitioner or advanced nurse practitioner to complement our dynamic clinical team. We are 5 GP partners, 4 practice nurses and 2 health care assistants as well as supportive and experienced management and administration staff.

Your Role:

Management of acute patients, using your advanced clinical skills to diagnose and formulate treatment plans. Develop ongoing patient management alongside our existing team with the aim to provide excellent patient care. There is opportunity for chronic disease management, home visits, immunisations and sexual and reproductive health care depending on interest and/or qualifications. Appointments are 15 minutes. There are regular clinical meetings and daily GP support if required.

The surgery:

We are based in a purpose-built multi-disciplinary centre with a secure pass-operated staff car park. We are just off J21 of the M60, easy to find and with good public transport links to Oldham and Manchester city centre.

- List size 12,850
