

Health Education England purchase content for all NHS staff at national and regional level that includes journals and databases and evidence based products. These resources are accessible under license by registering for a NHS Athens account.

GPs & Practice staff in Greater Manchester can register for an account but only 489 have done so which leads me to believe most people are unaware of these resources.

They include;

- 30 BMJ Journals
- Oxford Medical Handbooks Online
- Cochrane Library
- Cochrane Clinical Answers
- NICE Evidence Search
- MEDLINE
- MEDLINE Complete
- EMBASE
- British Nursing Index
- CINAHL
- AMED
- PsycINFO
- PsycARTICLES
- ProQuest Hospital Collection

Anyone who registers needs to choose “GPs and practice staff in Greater Manchester” from the NICE website where is says “Please enter your organisation”

<https://openathens.nice.org.uk/>

Please enter your organisation

Kind regards

Steve
